

ORDINANCE NO. _____

AN ORDINANCE OF THE BOARD OF SUPERVISORS OF THE COUNTY OF SAN DIEGO
EXERCISING THE COUNTY'S POLICE POWER TO PROHIBIT RESIDENTIAL
EVICTIONS WITHOUT JUST CAUSE AND TO ENACT
A MORATORIUM ON CERTAIN RESIDENTIAL RENT INCREASES

The County of San Diego Board of Supervisors ordains as follows:

Section 1. Findings.

- (a) International, national, state, and local health and governmental authorities are responding to an outbreak of respiratory disease caused by a novel coronavirus named "SARS-CoV-2," and the disease it causes has been named "coronavirus disease 2019," abbreviated COVID-19, ("COVID-19").
- (b) On January 30, 2020, the World Health Organization ("WHO") declared a Public Health Emergency of International Concern as a result of the COVID-19 virus. On January 31, 2020, the United States Secretary of Health and Human Services also declared a Public Health Emergency of the COVID-19 virus.
- (c) On February 14, 2020, the San Diego County Health Officer declared a Local Health Emergency due to COVID-19, leading to the San Diego County Chief Administrative Officer serving as the San Diego (County) Director of Emergency Services and as the Coordinator of the Unified San Diego County Emergency Services Organization, issued a Proclamation of Local Emergency due to the COVID-19 pandemic which was ratified by the County of San Diego Board of Supervisors on February 19, 2020.
- (d) On March 4, 2020, California Governor Gavin Newsom declared a State of Emergency to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the State prepare for a broader spread of COVID-19. The declaration was issued as the number of positive California cases continued to rise and following one official COVID-19 death.
- (e) The World Health Organization announced on March 11, 2020 that it has characterized COVID-19 as a pandemic.
- (f) On March 13, 2020, the President of the United States of America declared a national emergency and announced that the federal government would make emergency funding available to assist state and local governments in preventing the spread of and addressing the effects of COVID-19.

- (g) The Centers for Disease Control and Prevention, the California Department of Public Health, and the San Diego County Department of Public Health have all issued recommendations, including, but not limited to, social distancing, staying home if sick, canceling or postponing large group events, working from home, and other precautions to protect public health and prevent transmission of this communicable virus.
- (h) On March 18, 2020, the Federal Housing Administration (FHA) enacted a 60-day moratorium on foreclosures and evictions for single family homes with FHA-insured mortgages, and the Federal Housing Finance Agency suspended foreclosures and evictions for single family homes with mortgages backed by either the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac) for 60-days.
- (i) On March 19, 2020 an Executive Order and Public Health Order directed all Californians to stay home except to go to an essential job or to shop for essential needs. It was modified on May 4, 2020.
- (j) On August 28, 2020, the State released the Blueprint for a Safer Economy to permit gradual reopening of certain businesses and activities. Counties are assigned tiers that are updated weekly and determined by the county's case rate and test positivity rate. The County is currently in the red tier.
- (k) On December 3, 2020, and December 6, 2020 Governor Gavin Newsom signed regional stay at home orders that further expanded local shelter in place orders in regions where intensive care unit (ICU) capacity dropped below fifteen percent. The order was lifted on January 25, 2021.
- (l) The Governor of the State of California has stated that individuals exposed to COVID-19 may be temporarily unable to work due to illness caused by COVID-19 or quarantines related to COVID-19 and individuals directly affected by COVID-19 may experience potential loss of income, health care and medical coverage, and ability to pay for housing and basic needs, thereby placing increased demands on already strained regional and local health and safety resources, including shelters and food banks;
- (m) Many County of San Diego residents are experiencing substantial losses of income as a result of business closures, the loss of hours or wages, or layoffs related to COVID-19, hindering their ability to keep up with rent payments.
- (n) Those residents financially impacted due to COVID-19 may not be able to make timely rent payments or may be forced to choose between making rent payments and having sufficient funds for food, medical care or other necessities for themselves and their families.
- (o) Without sufficient and long-term eviction protections, many tenants "self-evict" and move out even without adequate replacement housing, rather than face future legal eviction that could impact their ability to find new housing; while others are forced to move out of their

housing without adequate replacement housing may move into overcrowded living situations or become homeless.

- (p) The County of San Diego is experiencing a severe housing affordability crisis and approximately forty-six percent of San Diego County housing units are occupied by renters, who would not be able to locate affordable housing within the County if they lose their housing.
- (q) In response to the housing affordability crisis, in 2019 Governor Newsom signed into law Assembly Bill 1482, a statewide response to the problem of rent gouging that further burden tenants, some of whom cannot afford exorbitant rent increases and who might be at risk of self-evicting if faced with rent amounts that they can no longer pay.
- (r) Because experiencing homelessness can exacerbate vulnerability to COVID-19, it is necessary to take measures to preserve and increase housing security for San Diego County residents; and to protect public health and prevent transmission of COVID-19, it is essential to avoid unnecessary displacement and homelessness.
- (s) An urgency ordinance that requires just cause for termination of a residential tenancy during the COVID-19 crisis would help ensure that residents stay safely housed during the pandemic and would therefore reduce opportunities for transmission of the virus
- (t) On August 31, 2020, Governor Gavin Newsom signed into law Assembly Bill 3088 (AB 3088), which included COVID-19 eviction protections for some California tenants;
- (u) AB 3088 prohibits residential tenants from being evicted for failure to pay rent because of a COVID-19-related hardship occurring between March 1 and August 31, 2020, as long as the tenant provides the landlord with a written declaration of hardship. Residential tenants who experience a new COVID-19-related hardship between September 1, 2020, and January 31, 2021, are also protected from eviction as long as they pay 25 percent of the rent due by January 31, 2021.
- (v) Senate Bill 91, approved by Governor January 29, 2021 (hereinafter “SB 91”), extends the protections of the AB 3088 through June 30, 2021.
- (w) AB 3088 and SB 91 leave certain tenants unprotected from eviction, such as tenants who were unable to pay rent before the COVID-19 pandemic and tenants who are facing eviction for certain reasons other than nonpayment of rent.
- (x) During the tenure of AB 3088 and SB 91, San Diego County Superior Court has continued to process new eviction filings, hold hearings on existing eviction cases, and enter eviction judgments during the Local Emergency due to COVID-19.
- (y) The County of San Diego Sheriff’s department has continued to physically evict tenants from their homes during the COVID-19 Local Emergency.

- (z) A June 16, 2020 report by the San Diego Association of Governments found that more than two-thirds of Black (67%) and Hispanic (70%) residents in the San Diego region live in ZIP codes with higher than average unemployment rates.
- (aa) A June 16, 2020 report by San Diego Association of Governments found that approximately half of Black (52%) and Hispanic (49%) residents in the San Diego region live in ZIP codes with higher than average COVID-19 cases.
- (bb) A June 16, 2020 report by San Diego Association of Governments found that when compared to the white population, Black and Hispanic residents of the San Diego region are four times as likely to live in areas that have been impacted by COVID-19 and unemployment.
- (cc) On January 12, 2021 the San Diego County Board of Supervisors adopted a Resolution Declaring Racism as a Public Health Crisis.
- (dd) Legal Aid San Diego has reported a 30% increase in housing related cases from 2019 to 2020; and a 50% increase in housing related cases since January 2021.
- (ee) SB 91 does not alter a county's authority to extend, expand, renew, reenact, or newly adopt an ordinance that requires just cause for termination of a residential tenancy, consistent with subdivision (g) of Section 1946.2 of the Civil Code.
- (ff) This ordinance requires just cause for termination of a residential tenancy and provides additional tenant protections that are not prohibited by any other provision of law, and will serve justice and promote racial equity for renters in the County of San Diego and serves to preserve the public health and safety which is threatened by COVID-19 and to keep the residents of the County of San Diego housed.
- (gg) This Ordinance offers more protection to tenants than Civil Code section 1946.2 does, and is binding as required by Civil Code section 1946.2(g)(1)(B)(iii).

Section 2. Definitions.

- (a) "Change in CPI" means the percentage change from April 1 of the prior year to April 1 of the current year in the regional Consumer Price Index for the San Diego area, as published by the United States Bureau of Labor Statistics.
